

The Digital Media Lab is looking for students

RUC's **Digital Media Lab** is looking for engaged students interested in **voluntary** hands-on research experience working with digital data collection and analysis. As a **Junior Research Associate** you will collaborate as a lab affiliate on any of our ongoing projects, based on your interest. You are also welcome to pitch your own project. It will give you an opportunity to hone your skills by collaborating with experienced researchers in the areas of data science, programming, machine learning, digital ethnography, digital media, and digital democracy.

- We expect you to:**
- > Contribute ~4 hours per week to lab projects on average
 - > Explore and participate in ongoing projects or pitch your own idea
 - > Show curiosity and openness to learn
 - > Enjoy collaborating and working independently
- Why join:**
- > Become part of a small, spirited, supportive research environment
 - > Work with faculty on digital media projects
 - > Publish reports, papers or build new tools
 - > Add to your CV and professional network.
- How to apply:**
- Send 200 words in English or Danish to jakobbk@ruc.dk with:
- > Your name & study program + What you expect to learn by joining
 - > Any relevant skills/interests you'd like to offer the lab.
 - > Check out: **digitalmedialab.ruc.dk** to learn more about us
 - > **Deadline:** 22 September
