

DIGITAL MEDIA LAB

EVENTS | SPRING 2026

Tool Lunch: News bias detection with AI

24 Feb
12:00–13:00

Søren Pedersen (independent AI-developer) presents *the political bias monitor* that use AI for ‘live’ detection of bias in online news. The event is co-organized with the Journalism & Democracy Research Group. Bring your lunch.

Talk: Using AI for democratic innovation and to tackle wicked problems

17 Mar
13:00–14:30

Sofie Thorsen & Sam Rahbar (Inst. for Wicked Problems, INVI) present the *Involve* tool for democratic innovation and the associated AI-driven model for measuring the wickedness of public problems.

Tool Lunch: Data collection with Zeeschuimer

15 Apr
12:00–13:00

Frederik Henriksen (IKH/DML) introduces *Zeeschuimer*, a user-friendly tool for collection of social media data (e.g., TikTok and Instagram) developed by the Digital Methods Initiative (University of Amsterdam). Bring your lunch.
